

## Sirens

## All Good Things

Today's like the last one  
You feel the same  
But you'll soon hear the blast come  
The earth shakes

When the gas makes your brain numb  
Smoke rises  
To fill up your black lungs  
You'll be dying

No we won't wait  
You had your chance  
It's too late  
Now you better move  
So get away  
Cause we're coming for ya

Run when you here the sirens  
Calling for the coming of violence  
Battlecries breaking the silence  
Nothing here is keeping you safe

Run when you hear the sirens  
Nothing you can do you can't fight it  
Now we're closing in so keep quiet  
And listen to the sound of your fate  
Run when you hear them

Wait till the times right  
It's not safe  
Not even in the daylight  
You might cave

From the tension that's rising  
You're unaware  
That the bomb's pressurizing  
You're unprepared

So nice to know you  
You asked for a war, it came true  
So pray that your life will end soon  
It's all that you can do

Run when you here the sirens  
Calling for the coming of violence  
Battlecries breaking the silence  
Nothing here is keeping you safe

Run when you hear the sirens  
Nothing you can do you can't fight it  
Now we're closing in so keep quiet  
And listen to the sound of your fate  
Run when you hear them

Where are your followers ready to fight?  
All your believers preparing to die?  
No one to save you from facing the fire

Not this time

We gave you a warning  
The sky's black, now the acid is pouring  
The smokestacks fill the air with the poison  
Another blast and the city is falling

Run when you here the sirens  
Calling for the coming of violence  
Battlecries breaking the silence  
Nothing here is keeping you safe

Run when you hear the sirens  
Nothing you can do you can't fight it  
Now we're closing in so keep quiet  
And listen to the sound of your fate  
Run when you hear them

Run when you here the sirens  
Calling for the coming of violence  
Battlecries breaking the silence  
Nothing here is keeping you safe

Run when you hear the sirens  
Nothing you can do you can't fight it  
Now we're closing in so keep quiet  
And listen to the sound of your fate  
Run when you hear them
