

The Venom

All Good Things

You fell asleep
Spiraled even deeper
Woke up in a living nightmare

Stepped into a new dimension
No direction
Never said I'd fight fair
I got the venom

Anxiety
A higher frequency comes at the sight of me
I slide into the room
I come in quietly
Cause I'm the king
The one the that they all wanna be
They envy me

Snake eyes
I see in the dark
I see behind their smiles
Soon I'll make my mark
I'll have them hypnotized
I can smell the fear that keeps them paralyzed
Paralyzed

I got the feeling
Everything I want is for the taking
Nobody speaks cause everybody's waiting
For me to make a move
They feel their blood pressure spiking
Cause soon I'll be striking

Now you wonder why you can't breathe
Feel it burning through your bloodstream
You try to scream
Nothing comes outta your mouth
Poison is slowing you down
I got the momentum
I'll get em
I got the venom
The venom

Adrenaline
Now you're in a panic
Feel it setting in
Unleash my secret weapon
Now you'll never win
The man became the monster
When I shed my skin
I'm born again

Snake eyes
Lost your common sense
I'll watch you lose your life
Stabbed my back
You poked me one too many times
Hidden in the grass

You never saw the signs
Never realized

I watch em shaking
They're terrified
I find it entertaining
Are they awake?
Are they hallucinating?
Are they afraid to meet the beast they're facing?
I like it when they try to fight it

Now you wonder why you can't breathe
Feel it burning through your bloodstream
You try to scream
Nothing comes outta your mouth
Poison is slowing you down
I got the momentum
I'll get em
I got the venom
I got the venom
I got the venom
I got the venom

You fell asleep
Spiraled even deeper
Woke up in a living nightmare

Stepped into a new dimension
No direction
Never said I'd fight fair
I got the venom

You'll feel it sinking in
Sinking in
You'll feel it sinking in
Sinking in
You'll feel it sinking in
Sinking in deeper

Now you wonder why you can't breathe
Feel it burning through your bloodstream
You try to scream
Nothing comes outta your mouth
Poison is slowing you down
I got the momentum
I'll get em
I got the venom

Throat is closing
Mouth is foaming
Site of the bite is red and swollen
Skin is broken
You made a choice
So I'm destroying you now
Poison's taking you out
I got the momentum
I'll get em
I got the venom

Deeper, deeper
Deeper, deeper
Sinking in, sinking in
Deeper, deeper

Sinking in, sinking in
