

## Underlights

## All Good Things

In the spotlight  
I act like an animal  
When I'm done you'll run  
That's if you survive  
In your mind  
You think I'm  
A cannibal  
I'll eat your dreams alive

It's my turn now  
You learn how I do it  
When I head fake shake past  
I'm already gone  
I'm a blurred line  
You heard I'm  
Unstoppable  
I'll wake you when it's done

I'm movin up like an elevator  
The top floor  
And you're down at the bottom level  
A locked door  
Never was a good communicator  
But you know  
Anybody with a newspaper  
Will see my face later

Under the lights, under the lights  
Yeah I've been in it for this minute  
Pushing all of my life  
Under the lights, under the lights  
I'm gonna live gonna die  
Do it under the lights  
The lights  
I'm gonna live gonna die  
Do it under the lights  
I'm gonna live gonna die  
Do it under the lights

In a ceasefire I misfire a cannonball  
I can't hold back now  
I'm ready to win  
The flat tires  
The barbed wire  
Wont matter  
When I'm flying over everything you ever did

I'm the main show  
The lead role  
Professional  
The top spot  
You want  
But I can't be beat  
Cause the hero  
The Idol  
Can always bring  
The crowd up to their feet

I'm on my game playing top level  
And you run  
Cause you swear you saw the red devil  
Redrum  
Send you down to a new division [?]  
I won't remember you  
Because you're hidden by me on the television

Under the lights, under the lights  
Yeah I've been in it for this minute  
Pushing all of my life  
Under the lights, under the lights  
I'm gonna live gonna die  
Do it under the lights  
The lights  
I'm gonna live gonna die  
Do it under the lights  
I'm gonna live gonna die  
Do it under the lights

I'm feelin on top  
This is my time  
Tonight is my night

Under the lights, under the lights  
Yeah I've been in it for this minute  
Pushing all of my life  
Under the lights, under the lights  
I'm gonna live gonna die  
Do it under the lights  
The lights  
I'm gonna live gonna die  
Do it under the lights  
I'm gonna live gonna die  
Do it under the lights
