Wire Walker

All Good Things

I stop the world and walked away, I was melting in
I lost it all to feel the dirt beneath my feet again
I close my eyes to greet the day, till the sun goes down
I only want the night to know where the hell I've been

I'm a wire walker, a fire starter
I'm living life along the edge
I'm living life along the edge
I'm a wire walker
I'm a fire starter

We feel the shadows coming down and fade to grey
We change the filters but it's all the same, it's all the same
Eyes at my feet, head at the ground, staying stabilized
I never found an easy way out, but I compromised

I'm a wire walker, a fire starter
I'm living life along the edge
I'm living life along the edge
I'm a wire walker
I'm a fire starter

All I need is death beneath my feet
I need to feed the fire inside of me
All I need is death beneath my feet
I need to feed the fire inside of me

I'm living life along the edge
I'm living life along the edge
'Cause I'm a wire walker
I'm a wire walker
