

Just like magic  
All before I lose my faith  
You're just like magic  
You came and saved my fall from grace  
Ladies, you ready?  
Glorious, we will always be victorious  
Yeah, you know that we are glorious  
We're not ordinary

Take a little of this burden  
Make it light  
Carrying all this heavy  
Broken heart through burning fire  
Lift it higher

Give a little love to ease the pain  
Whatever the remedy  
We'll feed it through the veins  
Like water to grain

And just like magic  
All before I lose my faith  
You're just like magic  
You came and saved my fall from grace  
Ladies, you ready?  
Glorious, we will always be victorious  
Yeah, you know that we are glorious  
We're not ordinary

Put a little smile back on my face  
Give a little peace  
Take these broken shackles from the chains  
And their distain

And just like magic  
All before I lose my faith  
You're just like magic  
You came and saved my fall from grace  
Ladies, you ready?  
Glorious, we will always be victorious  
Yeah, you know that we are glorious  
We're not ordinary

Just like magic  
All before I lose my faith  
You're just like magic  
You came and saved my fall from grace  
Ladies, you ready?  
Glorious, we will always be victorious  
Yeah, you know that we are glorious  
We're not ordinary
