

I Need a Remedy

All Saints

Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah

See the fire burn in my eyes
I need a remedy
Fill me up inside
And if I take you home
For the ride
Let's get ready
Close your eyes better hold on tight, yeah
Hold on tight

You can't make me love you, no no
And you can't keep me just hanging around
Cause I'm ready to go
Yeah, yeah, yeah

So should I wake you up in the night
Cause there ain't nobody telling me wrong from right
A little rough stuff's what I like
So get ready
Close your eyes won't you hold me tight, yeah
Hold on me tight

You can't make me love you, no no
And you can't keep me just hanging around
Cause I'm ready to go
And you can't make me love you, no no
And you can't keep me just hanging around
Cause I'm ready to go

Got to get it on girl, get it on your own girl
Got to get it on girl, get it on your own girl
Got to get it on girl, get it on your own girl
Got to get it on girl, get it on your own girl

You can't make me love you, no no
And you can't keep me just hanging around
Cause I'm ready to go
You can't make me love you, no no
And you can't keep me just hanging around
Cause I'm ready to go

You can't make me love you, no no
And you can't keep me just hanging around
Cause I'm ready to go
You can't make me love you, no no
And you can't keep me just hanging around
Cause I'm ready to go
