

# Ratchet Behaviour

All Saints

When I catch you smiling away, you were making a fool of me  
You had that knife in that back of a wife of a man, that was cool like if yo  
u was squeezed  
Took the woman's kindness, misunderstood and thought that it made me weak  
I'm gonna break it down to you girl, female to female  
Right now take it to the streets

You don't really really wanna catch a bad one  
Cause I'm just here with my girls tryna have fun  
It's random why you come up me on a mad one  
So now I got flipped like a Samsung

Did you see that ratchet behaviour?  
It's gonna bring you down when we go to war  
That ratchet behaviour  
Make you think it was cool messing with my love  
Did you see that ratchet behaviour?  
It's gonna bring you down when we go to war  
That ratchet behaviour  
It's gonna bring you down

Come out the dark  
If I see ya won't sit down with ya  
She's a stone cold sinner, sinner  
Yeah you know that she a murder, this girl yeah  
Come out the dark  
If I see ya won't sit down with ya  
She's a stone cold sinner, sinner  
Yeah you know that she a murder, this girl yeah

Don't you realize that's [?] everytime that you walk my way  
I'm a woman, I know when a girl shows up and she wants to play  
I can see it in your eyes what you want it, no need to deny, don't speak  
Yeah I'm a break it down girl, female to female  
Take it to the streets

You don't really really wanna catch a bad one  
Cause I'm just here with my girls tryna have fun  
It's random why you come up me on a mad one  
So now I got flipped like a Samsung

Did you see that ratchet behaviour?
