

# We Are Blessed

All Sons & Daughters

We are loved at the end of our rope  
When we're less there is more of the Lord  
In the fight for our souls we must learn to let go  
And abandon who we are

We are loved when we feel all is lost  
When the shadows are cast on the cross  
Only then can we know the embrace of the one  
Who's carried us along

We are blessed, we are blessed [x2]

We are loved when we feel most content  
With who we are, nothing more nothing less  
We'll inherit the earth declaring Your worth  
Bring glory to Your name

We are blessed, we are blessed [x4]

We're blessed, we're loved  
Our hearts, our souls  
We now rejoice, rejoice

Oh oh oh oh...
