

## Good Luck With The Girls

All Star United

This is just to  
This is just to take up space, yeah  
Eighth grade, first base  
Amy slapped you in the face, yeah  
Cherry lip gloss on her lips  
But she wouldn't french kiss

Good luck with the girls  
Good luck with the girls  
Good luck with the girls next year  
Good luck with the girls  
Love can rock your world  
Good luck with the girls next year

Mid-life crisis  
Can you tell me where your wife is?  
Your place  
My space  
Your shirts are like Miami Vice's  
Forty-six is thirty-nine  
When you're dating online

Lost and lonely  
If you'd only grown up sooner  
Maybe love is more  
Than we thought in junior high
