

Is This The Moment

All Star United

You're waiting, you're aching
Could keep you up for days
Your bridges are breaking
Your dreams are wide away
Do you believe
Maybe this was meant to be
Watching the stars align

Is this the moment
Close your eyes, close your eyes
Is this the moment
You realize, just what this means
The way it changes everything
Is this the moment
Close your eyes

You're shaking, you're praying
This is the time and place
and somehow forever
will never be the same
Do you believe
this is more than gravity
Pulling your heart tonight

This could be destiny
Knocking on the door
This could be your everything
Everything and more
This could be what you've been
Forever waiting for
