Thank You, Goodnight

All Star United

O Lord, it's embarrassing I have been a cause for concern "Hallelujah" all the angels sing When castaways choose to return

And so before this sun sets I will rest with no regrets I'm ending with a phrase

Thank You, goodnight At the end of the day You've taken me somewhere Thank you, goodnight All the love that You gave Has taken me somewhere good

Gone is my eloquence Apologies come easy for some With a Savior, this is making sense I'm sorry for the things I've become And so before I lay down I'm making my rebound By ending with a phrase

Tonight I'm crawling Back from the fallen Like a desperate stray To where I was before I fell away
