

# There's Gotta Be Something

All Star United

Catch your breath from chasing after  
Happiness that disappears  
Tell yourself it's cool and cover  
up with laughter  
But underneath your skin  
You're dying to give in

There's gotta be something  
There's gotta be something that means everything  
There's gotta be something that means everything to you

Crawling out into the desert  
Cause someone said "The grass is green"  
This life's a let down when you feel  
it should be better  
And you just settle in  
Clinging to nothing

Dig in deeper  
Don't freak out  
I know one day you're gonna see  
You're everything to me
