

Faithless

All That Remains

With all our hopes and dreams answered
Are we not lost
With nothing driving us forward
We count the cost

How can we, not believe in ourselves
We let our lives fade away

Still we're far we're far from faithless
And we trust to guide us on
We still believe that, we still believe that we belong
Still we long we long for days when
We can trust we are not wrong
We still believe that, we still believe that we belong

Stay strong and let honor guide you, this can't be wrong
Make no mistake of our meaning this is our call
Let the hopeless let them be renewed.
Let weakness fall

Still we're far we're far from faithless
And we trust to guide us on
We still believe that, we still believe that we belong
Still we long we long for days when
We can trust we are not wrong
We still believe that, we still believe that we belong

How can we not believe in ourselves
Don't let our lives fade away

Let hope be renewed
Let weakness fall

Still we're far we're far from faithless
And we trust to guide us on
We still believe that, we still believe that we belong
Still we long we long for days when
We can trust we are not wrong
We still believe that, we still believe that we belong
