

## Forever In Your Hands

### All That Remains

I know that I can stand my head high  
Forget not where I fall  
Still I find why and reason

Yet that conflict still filling me  
Mistrust venom inside of me  
I am not the man that you see  
Just look inside me

Trust in me the way I trusted you  
I know we could have done this together  
If you believed in me like I believed in you  
My heart would be forever in your hands

How I miss February still  
Now that this becomes the moment  
Of all our failures

Yet that conflict still filling me  
Mistrust venom inside of me  
I am not the man that you see  
Just look inside me

Trust in me the way I trusted you  
I know we could have done this together  
If you believed in me like I believed in you  
My heart would be forever in your hands

Trust in me the way I trusted you  
I know we could have done this together  
If you believed in me like I believed in you  
My heart would be forever in your hands
