

We Are Only Human

All That Remains

Stand tall, head held high
Crush stones against you
Feel the fear, but let it guide you
That's when courage begins
No more living in terror
No more enslave the fear
Let my words fill you with power
Add your voice, do what we say

We are only human
We are only flesh and we're just men
Stand tall (stand tall)
Head high (head high)
Nothing can change you
We can make our own reasons
Add your voice and you know we'll make a stand
Stand tall (stand tall)
Head high (head high)
Nothing can change you

Let nothing stand in your way
Control your mind 'cause it hangs in the balance
You and your body, your destiny
Let no one take it away
Never pushed aside for another
Never let them skew who you are
Brace yourself
This opposition
Never bow to another man

We are only human
We are only flesh and we're just men
Stand tall (stand tall)
Head high (head high)
Nothing can change you
We can make our own reasons
Add your voice and you know we'll make a stand
Stand tall (stand tall)
Head high (head high)
Nothing can change you

Go!

Add your voice
Take a stand
Brace yourself
You're not condemned
Add your voice
Take a stand
Brace yourself
Never bow to another man

We are only human
We are only flesh and we're just men
Stand tall (stand tall)
Head high (head high)
Nothing can change you

We can make our own reasons
Add your voice and you know we'll make a stand
Stand tall (stand tall)
Head high (head high)
Nothing can change you
