

## Internet

### All Them Witches

Guess I'll go live on the internet  
Time to go outsource lightning once again  
I've never stepped so lightly in all my life  
And all the months of my childhood - turned to eggshell when I  
wasn't lookin'

And if you're askin' me  
I got one thing to say  
If I can't live here  
Guess I'll go live on the internet

Wasn't thinking of paying attention  
Just sat my feet down and started runnin'  
Kept to myself - most of the time  
All the while thought of nothin'  
Next to nothing  
Next to nothing

If you're asking me  
I got one thing to say  
If I can't live here  
Guess I'll go live on the internet

Hate's just an auger in our past lives  
Sitting idle by in a corner being  
And if you remove the need of the fence you remove the need of  
the tool  
Ain't no sense in keepin' around somethin' that really ain't wo  
rth keepin'

If you're askin' me  
I got one thing to say  
If I can't live here  
Guess I'll go live on the internet
