

Bottle And A Beat

All Time Low

Do you remember
Fast times in the summer rain?
The cold in December
Was it all a dream?

Tell me you're alright
Tell me that I didn't mean a thing
Lie to my face now
Say anything

And I'll always remember to never forget you
I'll always remember to never forget

Say you'll come find me
When I'm dancing in the streets
I don't need money, don't need sleep
Just need your pretty face, now
Say you'll come find me
When I'm dancing in the streets
We don't need money don't need sleep
Just need a bottle and a beat
Just a bottle and a beat

Will you forgive me
Over whiskey in the rain
Is there a shelter
From all this pain
Tell me you were right, darling
Tell me that you knew me all too well
Instead of going to bed now
Feels like I'm going to hell

And I'll always remember to never forget you
I'll always remember to never forget

Say you'll come find me
When I'm dancing in the streets
I don't need money, don't need sleep
Just need your pretty face, now
Say you'll come find me
When I'm dancing in the streets
We don't need money don't need sleep
Just need a bottle and a beat
Just a bottle and a beat

Pull me close now
Like a candle in the rain
I will surrender
To you again

And I'll always remember to never forget you
I'll always remember to never forget

Say you'll come find me
When I'm dancing in the streets
I don't need money, don't need sleep
Just need your pretty face, now

Say you'll come find me
When I'm dancing in the streets
We don't need money don't need sleep
Just need a bottle and a beat
Just a bottle and a beat
Just a bottle and a beat
Just a bottle and a beat
