

# Bubblegum

All Time Low

It's a dark world, these are dark times  
Let's find a dark room, lose our damn minds  
Burn the place down for the dopamine  
Ready, set, go! Do you feel the chemistry?

Candy-coat your make-believe  
Steal your jaded heart away  
Got no time for bittersweet  
Like symphony, just sing for me

'Cause I wanna be, let me be your bubblegum  
Yeah, I love it how you chew me up and spit me out loud  
Wanna inundate you like a song you can't get out your head  
Pop a sugar pill, are you feeling better yet?  
I wanna be, let me be your bubblegum, yeah

Life's a car crash, I'm the break lines  
Cut me so deep, find the butterflies  
I'm a night drive without the headlights  
Whatever it takes to get your head right

Candy-coat your make-believe  
Steal your jaded heart away

'Cause I wanna be, let me be your bubblegum  
Yeah, I love it how you chew me up and spit me out loud  
Wanna inundate you like a song you can't get out your head  
Pop a sugar pill, are you feeling better yet?  
I wanna be, let me be your bubblegum, yeah

Now let me overstate how much I'd like to dry your salty eyes  
Replace this bitter taste with something sweet, let me try

'Cause I wanna be, let me be your bubblegum  
Yeah, I love it how you chew me up and spit me out loud  
Wanna inundate you like a song you can't get out your head  
Pop a sugar pill, are you feeling better yet?  
I wanna be, let me be your bubblegum, yeah
