

Butterflies

All Time Low

Hey, hey

I heard it through the grapevine
You've been hanging by a thread
Rumors at the dog park
Sticking everyone's nose in what you did

It's how you cope, but now you're choking
While you're praying for some
Discount Jesus Christ to come
Save you from yourself

So what's the point of holding on
When letting go's the only way you're changing?
Stop waiting for the grass to grow
You're catching butterflies that ain't worth chasin'

Handcuff yourself to rock 'n' roll
Dreaming Hollywood dreams
Protect your neck and save yourself
Gatekeeping the peace

It's how you cope, but now you're choking
While you're praying for some
Discount Jesus Christ to come
Save you from yourself

So what's the point of holding on
When letting go's the only way you're changing?
Stop waiting for the grass to grow
You're catching butterflies that ain't worth chasin'

What's the point of holding on
When letting go's the only way you're changing?
Stop waiting for the grass to grow
You're catching butterflies

What's the point of holding on
When letting go's the only way you're changing?
Stop waiting for the grass to grow
You're catching butterflies that ain't worth chasin'
