

Caroline

All Time Low

Spend another weekend, getting closer than your clothes
In and out of bed you always keep me on my toes
A natural disaster, you're such a pretty mess
You're a ticking time bomb, darling, wrapped up in a dress

It's always her, and me, and you

Caroline, you keep me up at night
You're the only one I wanna do
Caroline, please take me home tonight
Tell your friend there's just no room for two
Cause you're the only one I wanna do

I can't count the messages that left me on my phone
Saying she's got no regrets and hates sleeping alone
Stuck inside your hurricane, how'd it come to this?
Check it off your bucket list and seal it with a kiss

It's always her, and me, and you

Caroline, you keep me up at night
You're the only one I wanna do
Caroline, please take me home tonight
Tell your friend there's just no room for two
Cause you're the only one I wanna do

Caroline, you keep me up at night
You're the only one I wanna do

Caroline, you keep me up at night
You're the only one I wanna do
Caroline, please say I'm yours tonight
Tell your friends there's just no room for two
Cause you're the only one I wanna do

(Sorry!)
