

Clumsy

All Time Low

I flew too close to the sun
Fell back to Earth like a stone
(Should've known, should've known, should've known)
I got too high on myself
Too young and stupid to tell
(Should've known, should've known)

I was bound to make a mess of things
Mixin' fireworks and gasoline
Never meant to make you fall with me

I let you down
I've been clumsy with your heart again
I guess you figured me out
Now here's a taste of my own medicine
(I let you down)

Caught at the end of a lifeline
The catch of a lifetime
(Should've known, should've known, should've known)
Oh, we were destined for danger
Familiar strangers
(Should've known, should've known)

We were bound to make a mess of things
Mixin' fireworks and gasoline
Never meant to make you fall with me

I let you down
I've been clumsy with your heart again
I guess you figured me out
Now here's a taste of my own medicine
And for all this pain that I can't explain
There's a black flag wavin' tonight
You know I let you down
I've been clumsy with your heart again

Turned the desert all to glass
Droppin' bombs on future's past
Nothing left for us, shadows dancin' in the ash
Turned the desert all to glass
Droppin' bombs on future's past
Nothing left for us, shadows dancin' in the ash
Turned the desert all to glass
Droppin' bombs on future's past
Nothing left for us, shadows dancin' in the ash
Turned the desert all to glass
Droppin' bombs on future's past
Nothing left

I let you down
I've been clumsy with your heart again
I guess you figured me out
Now here's a taste of my own medicine
And for all this pain that I can't explain
There's a black flag wavin' tonight
You know I let you down (I let you down)

I've been clumsy with your heart again

Turned the desert all to glass
Droppin' bombs on future's past
Nothing left for us, shadows dancin' in the ash
Turned the desert all to glass
Droppin' bombs on future's past
Nothing left for us, shadows dancin' in the ash
