

Favorite Place

All Time Low

I saw your face in a photograph
Oh how I wish that it could talk back
I'd drive right off the Earth to find you
If it meant that I could see you tonight
And I know you don't belong (Know you don't belong)
Know you don't belong to anyone
No you can't be tamed love, and
Maybe I was wrong (Maybe I was wrong)
Maybe I was wrong for this
But you feel like the sun on my face

So can we close the space between us now
It's the distance we don't need (Hey)
Yeah, you're everything I love about
The things I hate in me (Hey)
So come on, come on, come over now and
Fix me with your grace
Cause I'm not too far and you're my favorite place

I saw your face in the fire again
I touched the flames and burned down everything
I hear the sirens west of 8th now
Wonder if you're hearin' them too
And I know you don't belong (Know you don't belong)
Know you don't belong to anyone
No you can't be tamed love
Maybe I was wrong (Maybe I was wrong)
Maybe I was wrong for this
But you feel like the perfect escape now
(It's like the sun on my face)

So can we close the space between us now
It's the distance we don't need (Hey)
Yeah, you're everything I love about
The things I hate in me (Hey)
So come on, come on, come over now and
Fix me with your grace
Cause I'm not too far and you're my favorite place
(Hey, hey, hey, hey)

So come on, come on, come over now and
Fix me with your grace
Cause I'm not too far and you're my favorite place
