

## Fool's Holiday

All Time Low

I know I've been a real bad guy,  
my name's made the list more than a few times  
You could light up a candle for every mistake that I've made  
and I'd follow them home with you  
on a pity parade

For years and years I pushed you aside  
but never again

Wrap me up like a present and put me away  
and when it gets cold I'll be yours  
Let the bells ring on a fool's holiday  
I swear that I'm more than just broken promises,  
decorations can change like tinsel and ribbon so  
Do not open 'til you've got forever to spend  
with me on a fool's holiday

I've always lived too selfishly,  
nobody's perfect babe  
but I never tried to be  
So every second I've poisoned and all of the minutes you spent on me  
I'd give my whole life's worth of hours to fix what I've broken in the first place

For years and years I pushed you aside  
but never again so

Wrap me up like a present and put me away,  
and when it gets cold I'll be yours  
Let the bells ring on a fool's holiday  
I swear that I'm more than just broken promises,  
decorations can change like tinsel and ribbon so  
Do not open 'til you've got forever to spend  
with me on a fool's holiday

Tie me in ribbons and put me away,  
know that I'll always be yours  
Bells will ring on a fool's holiday

Wrap me up like a present and put me away,  
and when it gets cold I'll be yours  
Let the bells ring on a fool's holiday  
I swear that I'm more than just broken promises,  
decorations can change like tinsel and ribbon so  
Do not open 'til you've got forever to spend  
with me

Do not open 'til you've got forever to spend  
with me on a fool's holiday
