

## Modern Love

All Time Low

Look at you now, super strung out  
What would your mother say?  
Some killer queen, making a scene  
Don't got a price to pay  
Hook in my mouth, stringing me out on every word you say  
Those are the boys, these are the girls, don't matter anyway  
So quick to jump ship on some flavor of the week shit  
So now, I'll take you home tonight if only for the hell of it

Stacy, please, I'm suffocating  
Choking on infatuation  
You're obsessed with drugs and dating  
Modern love's too complicated (Complicated, complicated, complicated)

You're missing the point, nobody lasts after the honeymoon  
Why even try giving it back if there's a chance you'll lose?  
Out of the red and into the blue  
See it for what it is  
Chasing the high or living the lie  
Just like your parents did  
But I'll take you home tonight

Stacy, please, I'm suffocating  
Choking on infatuation  
You're obsessed with drugs and dating  
Modern love's too complicated  
'Round and 'round and 'round we go  
The carousel don't stop for us so  
Bite my lip and spin me faster  
Modern love's a beautiful disaster

Stacy, please, we're suffocating  
Tired of all the drugs and dating  
Turns out it's less devastating  
Staying home and masturbating

Choking on infatuation  
So obsessed with drugs and dating
