Pretty Venom (Interlude)

All Time Low

I think I'm going through denial
It's been a while, but it's clear when it hits me
I think I might have gone insane
I rot my brain, getting high on our history

Always know I'll be the one you'd sink your teeth into
Never thought I'd taste this good to anyone but you

How you gonna say that, take it all back
Fuckin' with my head will make my heart attack
And it's so bad, feelin' this sad
Runnin' runnin' circles down a one way track 'cause
You know what you do
How you gonna say that, take it all back
Fuckin' with my head will make my heart attack, yeah

Trapped like rats inside a maze
It ain't the same, but it sure comes close now
Pretty venom in my veins
How many ways, can I say this over

Always know I'll be the one you'd sink your teeth into
Never thought I'd taste this good to anyone but you

How you gonna say that, take it all back
Fuckin' with my head will make my heart attack
And it's so bad, feelin' this sad
Runnin' runnin' circles down a one way track 'cause
You know what you do
How you gonna say that, take it all back
Why you wanna do me like that

How you gonna say that, take it all back
Fuckin' with my head will make my heart attack
And it's so bad, feelin' this sad
Fuckin' with my head will make my heart attack, yeah
