Safe

All Time Low

Safe, better keep that thought to yourself (Self)
When you find that place and it only lasts for a minute
Yeah, it only lasts for a minute
These days (Days), gotta take your time, find your space (Space)
You can say it louder, but only you're gonna hear it
And it's gone in less than a minute

Take a little time to dry your salty ocean tears
If you need it, then you don't have to explain

So put the car in drive, and don't stop runnin' 'til you're long gone
(Oh-oh, oh, oh, oh)
You're gonna be alright if you just stop thinkin' it over (Oh)
Just put the car in drive, and don't stop runnin' 'til you're long go
ne (Oh-oh, oh, oh, oh)
They'll never slow you down if you don't look over your shoulder (Oh)

Safe (Safe), you can keep that thought for yourself (Self)
Yeah, you found your place, and you're all for this new beginning
You can make it last if you're in it

Stop wasting all your time on waiting up for better things
If you feel it, then it's all you have to say

So put the car in drive, and don't stop runnin' 'til you're long gone
(Oh-oh, oh, oh, oh)
You're gonna be alright if you just stop thinkin' it over (Oh)
Just put the car in drive, and don't stop runnin' 'til you're long go
ne (Oh-oh, oh, oh, oh)
They'll never slow you down if you don't look over your shoulder (Oh)

(Oh)
(Oh)
Just put the car in drive
And chase the county lines
You never know how far you'll go
Ride the coastal highs
For every long goodbye
There'll be a future down the road
Why don't you take a little time to get away?

So put the car in drive, and don't stop runnin' 'til you're long gone
(Until you're long gone)
You're gonna be alright if you just stop thinkin' it over (Oh)
Just put the car in drive, and don't stop runnin' 'til you're long go
ne (Run 'til you're long gone)
They'll never slow you down if you don't look over your shoulder (Oh)
They say you'll be alright if you just stop thinkin' it over (Oh)

(Oh)
(Oh)
