

SUCKERPUNCH

All Time Low

You pour your salt in my cuts and call it seasoning
You've got the recipe right, and now you're eating me alive
I wanna thank you so much for all your love and affection
All your toxic intention is in overdrive

So can I get a witness?
Does baby need an alibi?

I'm just some motherfucker you're
Dying to sucker punch
Come here, I'll pucker up
Kiss me while I'm falling down, you'll
Love it how I'm bleeding out for you

Just sink your teeth in my skin, down to the skeleton
My bones were made for the beat-
down you've been saving up for life
And all your restless obsessions, parasocial aggression
Chemical intervention, "Gimme cyanide"

So lemme get a witness
Does baby need an alibi?

I'm just some motherfucker you're
Dying to sucker punch
Come here, I'll pucker up
Kiss me while I'm falling down, you'll
Love it how I'm bleeding out for you
For you

So can I get a witness?
'Cause I been on your hit list
Trying to mind my business
Moving on, if you got something to cry about
Go on and get it out, mmm

I'm just some motherfucker you're
Dying to sucker punch
Come here, I'll pucker up
Kiss me while I'm falling down, you'll
Love it how I'm bleeding out for you

Bleeding out for you
