

Sugar

All Time Low

Caught me in the middle of a chemical drought
Quicksand City, but you pulled me out
Sitting so pretty on your pedestal now
Our shadows pressed against the wall
Floating like a disco ball
Followed you back down the hall

So, where you want to go?
Think I already know

Sugar
I don't know how you make it so sweet
The taste of you is all over my teeth
I could brush it off, but it ain't easy
So let me take a minute, spill the tea
Sugar
I like the way you're feeling underneath
And everything we need is in the sheets
You make me want to make you want to need me
We go until there's nothing left to eat
Sugar
Sugar

You can feel me giving up on gravity now
Stepping out of body, got me wondering how
We could stay like this until we gotta come down

So, where you want to go?
Think I already know
It tastes like, tastes like

Sugar
I don't know how you make it so sweet
The taste of you is all over my teeth
I could brush it off, but it ain't easy
So let me take a minute, spill the tea
Sugar
I like the way you're feeling underneath
And everything we need is in the sheets
You make me want to make you want to need me
We go until there's nothing left to eat
Sugar

Our shadows pressed against the wall
Floating like a disco ball
Followed you back down the hall

Sugar
Sugar
I don't know how you make it so sweet
The taste of you is all over my teeth
I could brush it off, but it ain't easy
So let me take a minute, spill the tea
Sugar
I like the way you're feeling underneath
And everything we need is in the sheets
You make me want to make you want to need me

We go until there's nothing left to eat
Sugar

Sugar
Sugar
Sugar
Sugar
