

# Tread Water

All Time Low

How long can we tread water?  
How long can we stay afloat?

You loved me like a broken record  
Skipping through your favorite verse  
You're dancing on to something better  
With somebody that knows your worth

I'm, I'm just an echo  
Yeah, I'm, I'm just a wave crashing

How long can we tread water?  
How long can we stay 'float?  
You wanna swim, you gotta learn to let go  
'Cause if you hold me any longer, yeah, you know  
We'll sink like a stone

I never meant to break that promise  
I never meant to let you down  
You thought that I was something different  
It's funny how it all played out, yeah

I, I was your lifeboat  
But I capsized in your waves, crashing

How long can we tread water?  
How long, how long?  
How long can we stay 'float?  
How long, how long?  
You wanna swim, you gotta learn to let go  
'Cause if you hold me any longer, yeah, you know  
We'll sink like a stone

Now nothing I can say is gonna change the way it was  
The tide can't wash away the memory of us  
And while the search and rescue's circling above  
I'd give you the last breath of air from my lungs

How long can we tread water?  
How long can we stay afloat?  
You wanna swim, you gotta learn to let go  
'Cause if you hold me any longer, yeah, you know  
We'll sink like a stone  
If you hold me any longer, yeah, you know  
We'll sink like a stone

We'll sink like a stone
