

Viva Las Vagus Nerve

All Time Low

The city's alive, I feel like dying again
I'd call for help, but maybe all I need's a friend
Back of the cab, back to your place again
With all your pretty words that help me play pretend

Nightcaps and nightmares
Dance like we don't care
It's a crush, it's a crutch
It's a curse that I think this much

And she said, "Baby, don't panic. We can just swerve
Night's gonna save us. Viva Las Vegas"
Fuck all the glitter, baptized in dirt
Nothing to save us, nothing to save
So lie, lie, lie, lie, lie to me
I like the way you make my heart beat
"Baby, don't panic. Life's just a blur"
"Viva Las Vegas!" Viva las vagus nerve

"I'll see you tonight," you promised me the world again
I'll meet you where the sunshine goes to sleep
And then you'll give me the stars to fill up the dark
But when it's over, will there be anything left?

Just nightcaps and nightmares
We touch like we don't care
It's a crush, it's a rush
It's a curse that I care this much

And she said, "Baby, don't panic. We can just swerve
Night's gonna save us. Viva Las Vegas"
Fuck all the glitter, baptized in dirt
Nothing to save us, nothing to save
So lie, lie, lie, lie, lie to me
I like the way you make my heart beat
"Baby, don't panic. Life's just a blur"
"Viva Las Vegas!" Viva las vagus nerve

So just lie, lie, lie, lie, lie to me
I like the way that you make my heart beat
Lie, lie, lie, lie, lie

Said, "Baby, don't panic. We can just swerve
Night's gonna save us. Viva Las Vegas"
No, don't you panic, just say the words
"Viva Las Vegas," Viva las vagus nerve
