

Bad Advice

All We Are

I wanna get even
But there is nothing that you do that's worth me leaving
And every time I try to end I lost my feeling
I'm left a bit colder
Like there's some bad advice that's sitting on my shoulder
Telling me that I'm the one who should act older

Oh I want to be different
And the voice that's in my head says I am older

Did you ever get bad advice
I don't think about it
I just face it
Don't take that bad advice
Just don't think about it
Think about it
Think about it

I wanna be wholesome
But there is something wrong with living in a coma
And there is not the time you think to get our move on

Oh I want to be different
And the voice that's in my head tells me to listen

Did you ever get bad advice
I don't think about it
I just face it
Don't take that bad advice
Just don't think about it
Think about it
Think about it
Just don't think about it
Think about it
Think about it

Did you ever get bad advice
I don't think about it
If it's not good enough
(Just not good enough, just not good enough)
It's not good enough for me
(Just not good enough)

Did you ever get bad advice
I don't think about it
I just face it

Don't take that bad advice
Just don't think about it
Think about it
Think about it

Just don't think about it
Think about it (just not good enough)
Think about it (just not good enough for me)
Did you ever get bad advice
I don't think about it (just not good enough)

If it's not good enough
