

Dance

All We Are

Are you worried about your sleep?
What you holding on to?
So you move out
Keep your head down

Are you falling around the beat?
What you coming down to?
So you call out
Can't find your feet and you can't even dance

Can't find your feet and you can't even dance
Can't find your feet and you can't even dance
I want you still
Can't find your feet and you can't even dance

Are you seeing a different shape?
What you moving round to?
So you hold out
For a dark light

Are you more than a pretty face?
Are you more than a pretty face?
In a trance, trance, trance
Can't find your feet and you can't even dance

Can't find your feet and you can't even dance
Can't find your feet and you can't even dance
I want you still
Can't find your feet and you can't even dance

Can't find your feet and you can't even dance
I want you still
I want you still

Can't find your feet and you can't even dance
Can't find your feet and you can't even dance
I want you still
Can't find your feet and you can't even dance

Can't find your feet and you can't even dance
I want you still
Can't find your feet and you can't even dance
Can't find your feet and you can't even dance

I want you still
Can't find your feet and you can't even dance
Can't find your feet and you can't even dance
