

It draws you in  
It pulls your skin  
It forces you down  
And spins you around  
I [?]  
The ocean floor

It floats, it sways  
It breathes, it decays  
To nothing

The wave came in  
To salt my skin  
I-I, hi-ide  
The wave, it streams  
I run in fear  
I-I, sli-ide

It lifts you up  
It let's you drop  
It calls your name  
It gets it's ways

The coral change

It floats, it sways  
It breathes, it decays  
To nothing

The wave came in  
To salt my skin  
I-I, hi-ide  
The wave, it streams  
I run in fear  
I-I, sli-ide

The wave came in  
To salt my skin  
I-I, hi-ide  
The wave, it streams  
I run in fear  
I-I, sli-ide

It draws you in  
It pulls your skin  
It floats, it sways  
It breathes, it decays  
To nothing
