

# Heart of Mine

## All We Are

I see you move in a memory  
How close do I wanna be, how close do I wanna be to it?  
In there you live some analogy  
How much do I wanna be, how much do I wanna be part of it?  
Oh heart of mine it's done its time  
I've done what I can, I've lived like I wanna be leaving or left behind  
But still I'm looking at you

I know that you're hurting me  
When you love someone you forget about it  
This hurt's gonna stay with me  
When you love someone you try, you try, you try, you try forget all about it  
Forget all about it  
(Forget all about it)  
You try, you try, you try, you try, you try forget all about it  
(Forget all about it)

I feel you look through eyes of mine  
How much do I wish, how much do I wish we spent our time?  
But every day you're by my side  
How much do I wish, how much do I wish you'd say goodbye?  
I feel you sigh, oh heart of mine  
I've done what I can, I've lived like I wanna be bleeding or satisfied  
But still I'm looking at you

I know that you're hurting me  
When you love someone you forget about it  
This hurt's gonna stay with me  
When you love someone you try to forget all about it

I know that you're hurting me  
If you love someone you can't live without  
I hear what you're saying to me  
When you love someone you try, you try, you try, you try, you try, you try, you try, you try  
But still I'm looking at you

I know that you're hurting me  
When you love someone you forget about it  
This hurt's gonna stay with me  
When you love someone you try to forget all about it

I know that you're hurting me  
If you love someone you can't live without  
I hear what you're saying to me  
When you love someone you try, you try, you try, you try forget all about
