

Punch

All We Are

I don't need safety
You don't need to worry
I'm stronger and I'm older
And I don't need your sympathy

I'll reach out when it feels right
'Cause fortune won't find me
I'll break it down and I'll take what's mine
And I'll even take a punch for it

I don't need this, I won't lock it away
I've faced this dirt, it has to end
'Cause I don't need this, I won't lock it away
I've faced this dirt, it has to end
It has to end
It has to end

I've faced this dirt, it has to end

I don't need this, I won't lock it away
I don't need this, I won't lock it away
I've faced this dirt, it has to end
'Cause I don't need this, I won't lock it away
I've faced this dirt, it has to end
It has to end

'Cause I don't need this, I won't lock it away
I don't need this, I won't lock it away
I've faced this dirt, it has to end
It has to end
I don't need this, I won't lock it away
