

## Honey Peeps

All

I woke up to see somebody staring at me  
Through the window I knew it was you  
That's how we first met I was watching you undress  
I winked at you and you threw a shoe called the police

Honey please don't do this to me  
I wanna ask you out for Saturday night  
If you bail me out I know we can work it out  
I picked you cause I knew that it felt right

You dropped the charges then you drove me home  
That's when I knew we were alone  
I did my best to thank you gave me your name and number  
And said we have a date to pick you up and don't be late

Angeline 264-5783 the big house on the corner that looks like  
A tangerine great big windows easy to see in  
I took my chance and moved in

I turned on all my charm I put my arms around you  
Explained the way I met you how I never meant to hurt you  
Said you shouldn't be staring at me like that  
But I couldn't turn down my first date since I moved to town

We went out for a year  
One day her smile turned to tears  
Said we can't go on  
I've met somebody new the same way I met you yeah  
And he nailed me with his charm

Honey please don't do this to me  
Stick around I think that we can work it out  
Maybe what we had was never meant to last  
I still look in your window when I pass your house

Maybe what we had was never meant to last  
I still look in your window when I pass your house
