

Today she made the pain stop  
With the sound of her voice  
I've learned to live with doubt  
And I've learned to live without  
But not by choice

I've had enough sad memories  
To last me all my life  
I've learned to live with doubt  
And I've learned to live without  
But not this time

Well, I was walking wounded  
I said never again  
She makes it easy  
She's my best friend, my best friend  
She's right

I look in her eyes  
I like what I find  
I've learned to live with doubt  
And I've learned to live without  
But not this time

We speak the same anguish  
When we make love she smiles  
I've learned to live with doubt  
And I've learned to live without  
But not this time

Well, I was walking wounded  
I said never again  
She makes it so easy  
She's my best friend, my best friend  
She's right

Well, I was walking wounded  
I said never again  
She makes me happy  
To be her best friend  
She says she's my best friend  
She's right
