

Sex In The Way

All

I'd like to see you every night and day
With sex in the way
I can't see a thing
And dream about you every night and day
With sex in the way
I can't see a thing

My mind's between your legs
My soul is lying in your bed
Now I'm not really sure
Things so evil feel so pure

I'd like to see if I deserve your love
With sex in the way
I can't see a thing
Why must we kiss?
Each time we say goodbye
Why must we say
That three word lover's lie

I'd like to see if you are as you seem
With sex in the way
I can't see a thing

I'd like to see if I deserve your love
With sex in the way
I can't see a thing
I'd like to see if you are as you seem
With sex in the way
I can't see a thing
