

Had It All

Allah-Las

Didn't come around cause I had it all
(I had it all)
Never settled down cause I had it all
(I had it all)

But it all just came and went faster than I could
Have the time to separate the bad from good

Didn't really try cause I had it all
(I had it all)
Never questioned why I had it all
(I had it all)

But it all ain't really much when all you need
Is the time to let your mind be relaxed and free

Yeah, it all just came and went faster than I could
Have the time to separate the bad from good

Now my days are numbered
You and I can see
That I'll have to take the fall
I had it all

(I had it all)
I had it all
(I had it all)
I had it all
(I had it all)
I had it all
(I had it all)
I had it all
(I had it all)
I had it all
(I had it all)
I had it all
(I had it all)
I had it all
(I had it all)
