

# American Pie

Allan Rayman

Pardon me, was that a verse?  
You said it was a song, it sounds like a curse  
Now I'm alone, I feel like the worst  
Why does it happen?

Why does it happen to girls like me?  
Why does it happen?  
Why does it happen to girls like me?  
Why does it happen?

You said it's your first time, that sounds like the worst  
What could happen?  
You think you're special, that's not what it is  
Sounds like a good time, that's what it is (That's what it is)  
That's what it is, that's what it is (That's what it is)  
That's what it is and that's what it is (That's what it is)  
That's what it is, that's what it is (That's what it is)  
That's what it is

I said it the first time, but you never listen  
So I get real specific, I keep it realistic  
Maybe a bicycle, maybe a clock  
Maybe it's 4/20, maybe I'm stoned  
Maybe it's alcohol, and maybe it's lame  
But maybe it's cool, but maybe it's cool  
But maybe it's cool, but maybe it's cool  
But maybe it's cool, but maybe it's cool  
But maybe it's cool, but maybe it's cool  
But maybe it's cool, but maybe it's cool  
But maybe it's cool, but maybe it's cool  
But maybe it's cool, but maybe it's cool
