

# Good Enough

Allan Rayman

I feel everything way too much  
I change my name and I feel more tough  
I bleach my hair and shave my scruff  
I'm good for nothin', that's good enough  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much

All I chase seems awfully good  
But when I get good, I get bored  
Challenge is no challenge left at all  
Try too hard and you will fall  
I thought good got better, that's true  
Better got darker and so did you  
I scream champion, you scream help  
The good get out, the good get out

I feel everything way too much  
I change my name and I feel more tough  
I bleach my hair and shave my scruff  
I'm good for nothin', that's good enough  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much

Home is on the road, and road is never long  
I've seen many things, oad has many songs  
I sing pretty songs, ayy, I sing pretty songs, ah  
I sing pretty songs, ayy, I sing pretty songs, ah  
I come on pretty strong, sweet nothings, then I run  
I don't try love 'cause it stops me  
I will try love when I'm done  
That's about the fiend and the fix  
It's about the note and the gun

I feel everything way too much  
I change my name and I feel more tough  
I bleach my hair and shave my scruff  
I'm good for nothin', that's good enough  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much  
I feel everything way too much
