

## Overture

Allan Rayman

She knows home as a small town  
Her father wasn't around  
She blames her country for the sound of her mother with another  
While her fathers in the ground down down

They say the devils in the details  
She sees him in the house  
In the star spangled banner  
The pictures all around  
She makes plans to burn it down  
Down down  
Down down  
Down down  
Down down  
Down down

She don't always think of you  
But when she's sad and lonely  
She just blew out another 1.05 fucking flying  
Never felt so alive
