

Time

Allan Rayman

Sara the girl she'd never smile
Waste my time and birth my child
I told her what I'd do I put my finger back at you
She'd rather lie than tell the truth that kid don't look a thing like you
Tell her how you feel
Erase that thing that wound won't heal

All I want from you
Is time time time time time
All I want from you
Is time time time time time time

Sara the girl shed never smile
Waste my time and birth my child
She used to be down for what I do shed share that fucked up point of view
What kind of man would turn his back on the woman he loved for a lie like that
Running around with your fist down we fixed that fight we wrote that song

Sara the girl shed never smile
Waste my time and birth my child
Told her that I don't know now I'd make this better if I knew how
Sara the girl this point of view I point my finger back at you
She'd rather lie than tell the truth
That kid don't look a thing like you

All I want from you
Is time time time time time time
All I want from you
Is time time time time time time

All I want from you
Is time time time time time time
All I want from you
Is time time time time time time
