

# Bored

Allday

We keep walking down that road  
We keep walking down that road  
Yeah  
We keep walking down that road

It's been a long day  
In a long week  
In a short life, so boring  
We hold up  
It's alright  
I'm just tired like poor me  
Pour me some more life  
I'm grinding like this coffee  
No sugar I'm going weird  
Going bunta I hope it clears  
Yesterday day a little ghost appeared  
Told me the milk man's goatie bear  
La la la and so I did  
La la la drank most of it  
I know this I'm little homerish  
Looking like Jimbo Jones' and shit  
I gotta girl who's the baddest  
But I think I need two damn it  
No I really need two planets  
To keep all my suits hanging  
Think I need my room padded  
Just for a new challenge  
Just for something to do  
Before I start sniffing glue

As a boy I was a little bored  
Now that I'm grown I'm a little bored  
I guess that were all just a little bored  
And we keep walking down that road

We live and die  
But do we really live  
As our fingers type  
And all you hear is clicks  
I think I've lost it  
More sick than an ano chick  
And I'm bored stiff  
More stiff than orlando's dick  
Ah, I got my jesus do  
Don't care what would Jesus do  
There's bullshit on the TV news  
And most of us believe it too  
They call me evil dude  
Cause I don't mind my P's and Q's  
Or pee on que like tour de france  
I'm Full of drugs like more than lance

As a boy I was a little bored  
Now that I'm grown I'm a little bored  
I guess that were all just a little bored  
And we keep walking down that road
