

Bright

Allday

You like drinking in the park
Close your eyes and then it's dark
Like that cops and robbers game
We'll slip away
And these streets they make you sick
Dirty men play dirty tricks
This town could make you cold as stone

And every time you need me there
Yeah I'll be changed, and you'll be bright
I'll, delete the pain, you'll hit me like
Sun in my eyes
Yeah yeah

You like dancing in the rave
The drugs are no good for our brains
Eating ice cream for the blues
We're good as new
Cranes they lift things up and down
Baby it's a changing town
You're gonna miss it when it's gone

And every time you need me there
Yeah I'll be changed, and you'll be bright
I'll, delete the pain, you'll hit me like
Sun in my eyes
Yeah, yeah

And I just want to be by you
And I just want to be by you

And every time you need me there
Yeah I'll be changed, and you'll be bright
I'll, delete the pain, you'll hit me like
Sun in my eyes
Yeah, yeah

You'll hit me like a tonne of bricks
I'll hit you like a big old cherry stain
You'll hit me like a morphine drip
And you'll be bright
