

# Mirror Ball

Allday

People talk, people talk down nonsense  
Take no offence from their off hand comments  
Most people are just working out their problems  
But most of their lives do have a bit of substance  
We can sit here and talk all constant  
I can just chill and let you work out the cobwebs  
You can tell me anything whenever you feel sad  
See my lips are sealed, I'm like a steel trap  
I can tell you lies like a little rat  
And you would never even know where I'm really at  
I could say I'm sorry, it wouldn't be the case  
Promise you better, but could you really see me change  
I should love one of these girls I'm sure of it  
But I ain't not even after fall for it  
So I just pick a fight and call it quits  
I know it's all in my mind yeah I'm on some shit

I'm straight making paper, smoking forests  
With naked babes that look like Pocahontas  
And the girls say I'm so dishonest  
I'm waiting for the right one, a total Goddess  
I'm so reputable, I'm so ran out  
I just play a number game like a head-count  
See the level I'm on is so penthouse  
Bring your friends out we can all get down  
And paint the town red like it's Man-U  
I want you out of my head but the bad news is  
You had root, I was straight up, bamboo  
Told you the facts, you had to move  
And your attitude shifted [?]  
Wishing we could join our lids together, New Zealand  
You could be the one that I'm meant to find  
Can I get a minute of your precious time?

Met someone that makes the world more simple  
Makes every single one of my pores tingle  
Knowing the past, I sorta been cruel  
Girls are hard to quit man, that's why I call them Pringles  
To me I got love in them, more love  
Do I love them? maybe, yeah, sort of  
I got a lot of lust and a robust injures  
You must be something special to grasp my attention  
I know I'm going to pay for my passing discretions  
Charm is a weapon, juice pass like lemons  
My dead relationships above in the heavens  
Probably wonder why when you fuck with your best friends  
Let's be candid I'm insecure  
When I'm in something good wonder why I'm in it for  
I would be anything if I could  
Just to have you light up my life, mirror ball
