

One For Me

Allday

You got things, I can't buy
The thickshake, upsize, I can't lie
No I'm not wasted, just high
My old ways, I'm so changed, I cut ties
Even with that girl hope, she had a glimmer
And the stripper, who used the hit the line, with a
Picture, after a shift, sip clear liquor
She on delivered, left, I'm right witcha
And when the walls come up I see right through
And no one runs to your side like I do
How many ways can I say that I like you?
It's taking all of my mind

One for me
Cause I feel good in your company
You get me, get me, get me
I don't wanna waste it baby, baby
One for me
Cause I feel good in your company
You get me, get me get me
I don't wanna waste it baby

Cause you are the one that I want
What I want is a good time
Ima be around be around
Be around for a long while, long while

Big swinger, first stringer 3rd base
We'll go at your pace home plate Skidder
They rage quit her, me I'm the game winner
A lot of them stay salty, I lays with her
80s Bimmer, 200k
On the dash in my bank less than that
Sex in the unisex, get the latch
Fuck around and get attached, oops
U look like a Bratz, but it's not plastic
And even if it is, it looks fantastic
Drink wine all the time like a damn catholic
And the dj always on that wind back shit
I'd rather have you twice than two time
Days flew by, of these birds, I grew tired
Tell you lies, how dumb I look like?
I would tell you anything except goodbye

One for me
Cause I feel good in your company
You get me, get me, get me
I don't wanna waste it baby, baby
One for me
Cause I feel good in your company
You get me, get me get me
I don't wanna waste it baby

Cause you are the one that I want
What I want is a good time
Ima be around be around
Be around for a long while

Cause you are the one that I want
What I want is a good time
I been on the run on the run
On the run, but I'm so tired
So tired

One for me cause I feel good in your company
Hard to see anyone else doing much for me
