

# One Track Minded

Allday

Yeah, its a jungle in my head  
For the money I'm one track minded  
Oooh, the feeling is priceless  
If I puff this one, I'm gone gone gone  
I need some excitement (thrills)  
For the pussy I'm 1 track minded  
Ooh got me in a vice grip  
I'm a long way from the dawn

Caught inside a vice  
She opened up my mind  
I'm lost inside these streets  
The city got me blind  
A plan you must devise  
The money turn them guys  
To Judas Iscariot  
For a chariot of fire  
But I would feel better with a Rari, zoom  
Illegal tint blacking out the window  
1 more hit of this I'm sitting on the moon  
2 more hits of this and I might go  
What I need?  
I told her bust it open like Sherlock Holmes  
She said it's elementary  
Like a moth to a flame  
I don't want to explain  
What's going on inside my brain

Yeah, its a jungle in my head  
For the money I'm one track minded  
Oooh, the feeling is priceless  
If I puff this one, I'm gone gone gone  
I need some excitement (thrills)  
For the pussy I'm 1 track minded  
Ooh got me in a vice grip  
I'm a long way from the dawn

Yeah, we one track minded  
It's all about money but  
Too (two) be honest  
That pussy so invitin'  
She took 3 perc 30's  
And it's early in the morning  
She like 4 ring audi's  
And the links they on some Cuban  
I said  
Uh yeah  
Walk in side  
And uh yeah  
Had to slide like toosie  
Feelin, like I'm tunechi  
Walk out & side wave  
Crystals on my hand  
They hyper poppin like they glaive  
Middle fingers to the air that's on some fuck you cause we  
Paid!  
This bender feelin' graceful, so you know

It goes  
3 days  
Tied the knot & let it slip, and all that money make it  
Rain, hit reverse & inside the whip, and had it  
Fallin' into place  
I know they love me but they hate my  
One track ways I told em uh

Yeah, its a jungle in my head  
For the money I'm one track minded  
Oooh, the feeling is priceless  
If I puff this one, I'm gone gone gone  
I need some excitement (thrills)  
For the pussy I'm 1 track minded  
Ooh got me in a vice grip  
I'm a long way from the dawn

Getting to the money that's me first  
She blowing up my beeper  
Cause I make the bed go "ee" "rr"
