

Outta Space

Allday

(Tell me are you out there
Can you feel me out there
I can feel your energy a mile away
I feel your energy from outta space)

Mid-flight wifi calling you
Seven more days 'til I'm coming through
None of this shit feels new to us
Still separating our love from lust

Bought ya something back from the jewelry store
Make up for the fact that I'm never home
But I couldn't get you nothing
I find it hard to function

Tell me are you out there
Can you feel me out there
I can feel your energy a mile away
I feel your energy from outta space

Tell me are you out there (Out there)
Can you feel me out there (Out there)
I can feel your energy a mile away
I feel your energy from outta space

La, la, la, la, la, la
La, la, la, la, la, la
I can feel your energy a mile away
I feel your energy from outta space

Dear honey, baby, be honest
Is it me in your head, like a bee in your bonnet?
Quick, I made priorities shift, like tectonic plates
Deleted old names from electronics

I don't like texting, I'd rather E-S-P
And it wasn't no question, we found the frequency
Easily, and when I cross the sea
I'm yours truly, clear for everyone to see

There'll be planes, trains and automobiles, with hot wheels
'Til I'm back in your presence for real
In my bag like I'm Felix, cut out the pain like appendix
Steady hand, bigger plans, wrote this letter, licked the stamp

Tell me are you out there
Can you feel me out there
I can feel your energy a mile away
I feel your energy from outta space

Tell me are you out there (Out there)
Can you feel me out there (Out there)
I can feel your energy a mile away
I feel your energy from outta space

La, la, la, la, la, la
La, la, la, la, la, la

I can feel your energy a mile away
I feel your energy from outta space

Smoke in the room
Started clouding your vision
You're fading
You're fading
We're fading

Smoke in the room
Started clouding your vision
You're fading
You're fading
We're fading

Tell me are you out there
Can you feel me out there
I can feel your energy a mile away
I feel your energy from outta space

Tell me are you out there (Out there)
Can you feel me out there (Out there)
I can feel your energy a mile away
I feel your energy from outta space

La, la, la, la, la, la
La, la, la, la, la, la
I can feel your energy a mile away
I feel your energy from outta space
