

peroxide

Allday

Think I'm from mars
Feel like a spaceship in this car
Out of my slump
Matt Ishbia they all my sons
It's only game 1 (one)
I can't let them get to me once
Smoke in my lungs (lung)
In a few months my baby's gonna come
I gotta focus quick
That's my lithium charge
Limitless pill or was it a bar?
Treat them things like Tic Tacs
Always say uno mas

I never get upset (I get even)
Fuck forgiveness but I know how to forget (I'm a demon)
I took something now I'm talking out of step (yes, I'm geeking)
No, I cannot stay I'm running to a cheque, this time

I'm cleaning up with peroxide
Might spin the block just like a turnstile
She ride me backwards all the way home (way home)
You always hating what the fuck you know?
(The fuck you know?)
I'm cleaning up with peroxide

I won't see through your eyes
Trust me that I'd rather die
Curse me, I won't reply
Just send ravens over your side
She got a certain allure
I like em weird like Bjork
Save the princess with my sword
I bet she taste like a fjord
Skateboard star with no board
Rockstar couldn't play a chord
Still trip me out when I tour or
See my record in the store, yea
I'm grabbin' it, excalibur
In a purple section, lavender
And my drink is laced like Salomon
Guard the queen like Anakin

I don't get upset (I get even)
Fuck forgiveness I took something to forget (now I'm geeking)
I'm just walking down a path already set (yes, I'm leaving)
See you later I'm off running to a cheque

I'm cleaning up with peroxide
I guess I never had the foresight
She ride me backwards all the way home (way home)
Stay hating what the fuck you know? (fuck you know?)
I'm cleaning up with peroxide
